FOREST DS® - DESIGN SYSTEM

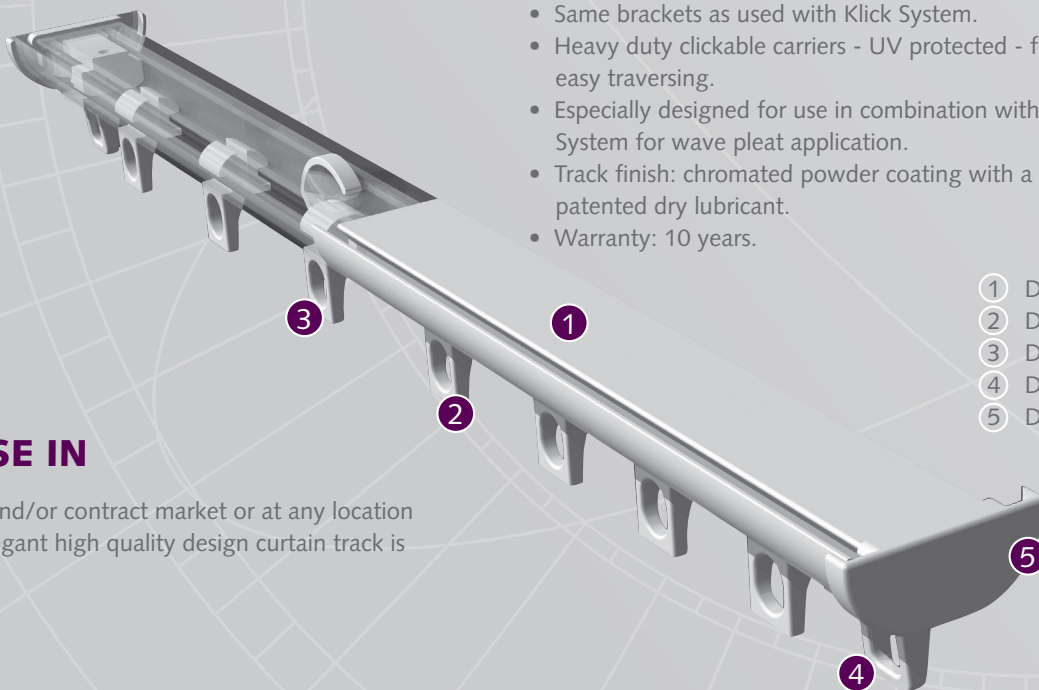

The DS® curtain track system is for fans of a sleek curtain track. This manually operated curtain track system fits into any stylish interior with an eye for design.

The DS® system has the same dimensions as the Klick System (KS®). This makes it possible to use all KS® assembly components (except the end caps). The height of the track is 11 mm and a “belly” has been created at the front so that the brackets can be mounted out of sight.

The DS® track can also be bent, making it extremely suitable for semicircular bay windows.

PRODUCT INFORMATION

- Elegant and aesthetically pleasing hand drawn track system.
- For all types of medium weight draperies (max.curtain weight 8kg per meter).
- Colours available: white, silver, anthracite and black.
- Available lengths in white: 4, 5, 6 en 7 meter (silver in 4, 5, 6 meter & anthracite and black in 6 meter).
- Bendable; designer curtain track can be curved for outside bends only using a 10 cm radius or continuous curved.
- matching assembly components for white, silver and black.
- Invisible ceiling brackets to fix track flush to ceiling available.
- Quick installation with “Smart Klick” brackets for wall and ceiling applications.
- Same brackets as used with Klick System.
- Heavy duty clickable carriers - UV protected - for smooth and easy traversing.
- Especially designed for use in combination with Forest Easyfold System for wave pleat application.
- Track finish: chromated powder coating with a factory applied patented dry lubricant.
- Warranty: 10 years.

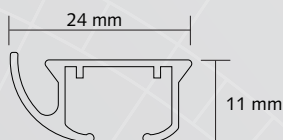

FOR USE IN

Residential and/or contract market or at any location where an elegant high quality design curtain track is required.

- ① DS Track
- ② DS Carrier
- ③ DS Stop carrier
- ④ DS Twist end stop
- ⑤ DS End cap

SPECIFICATIONS

- Shown actual size 1:1
- Weight: 170 gr/meter
- Aluminium Extrusion
- Size: 11 x 24 mm
- Colours: white, silver, black

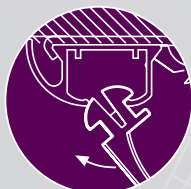

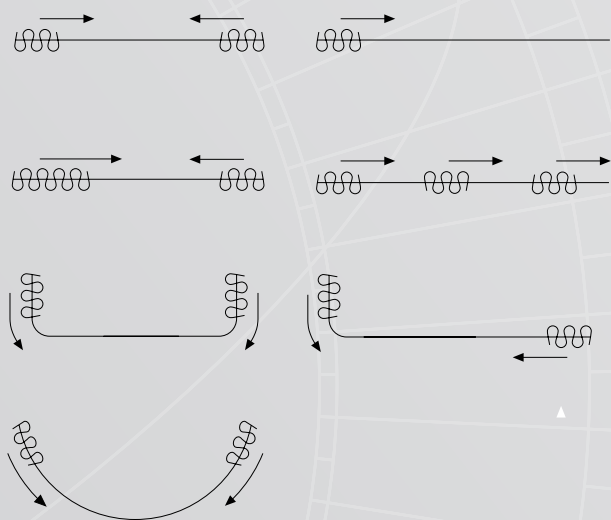

BENDING / CURVING

The track can be curved and reversed curved using a 10 cm (4") radius. Continuous curving is available by special order from factory only.

FOREST DS-XL® LED / Motorised

reddot winner 2021

This unique drapery system combines a stylish design with a unique way of lighting. Many designers will work with a lighting plan with three levels: High, especially if the ceiling is vaulted or has been finished with a special material; medium, which includes wall sconces; and low, which means floor lamps and other small lights. Our DS-XL® LED is the solution for a lighting plan on a higher level, integrating our track to create an overall glow on the ceiling.

The DS-XL® LED is an elegant system for all types of medium weight draperies. Available length up to 6 meter in 2 colours: timeless white and in a stylish anthracite finish, making it suitable to fit in every design.

Create privacy

It also offers the possibility to illuminate the backside and/or the curtain track itself enabling a higher level of privacy.

SUSTAINABLE LIGHTING

Traditional ways of lighting are very wasteful. Most of the power is wasted in the form of heat. This is why there has been a big push to change the environmental impact of lighting. Another benefit of LED lighting is sustainability and eco-friendliness. The system doesn't use toxic chemicals and it can last for years. It has a life span of approximately 30.000 hours.

PRODUCT INFORMATION

- Designer track for lighting and curtain track combined.
- Colours available: white and anthracite.
- Especially designed for Forest Wave application.
- Simple electrical installation by means of clickable connectors.
- Ceiling brackets and wall brackets available.
- One LED strip or two led strips for extra luminosity.
- LED Colour temperature: warm white 3000.
- Low energy consuming LED strip, eco friendly.
- Dimmable LED strips (120 LED's per meter).
- LED Lifespan of 30.000 hours.
- No soldering, clickable components for easy installation without the need for an electrician.
- Power: 15 watt/mtr (4.6 Watt/ft).
- Energy label A+.
- The DS-XL® LED Motorised system can be integrated into any building automation system.
- The motorised track system can be installed onto all Forest Shuttle® motors.
- Warranty: 10 years (except LED-lighting).

DS-XL® LED MOTORISED

The DS-XL® LED Motorised track system is the latest innovation of the Forest Design Series. This brand new drapery system is designed to create visual impact and provides superior functionality and ease of use to the end-user. Controlling the curtains and integrated LED-lighting by remote control or building automation system guarantees a unique experience of atmosphere and comfort in any room.

RED DOT AWARD

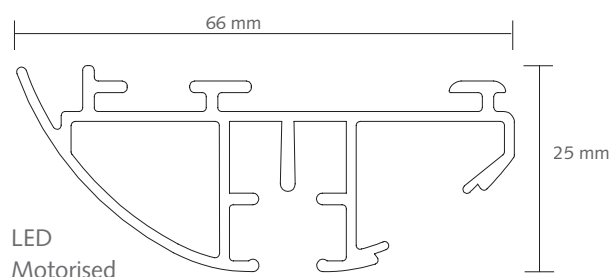

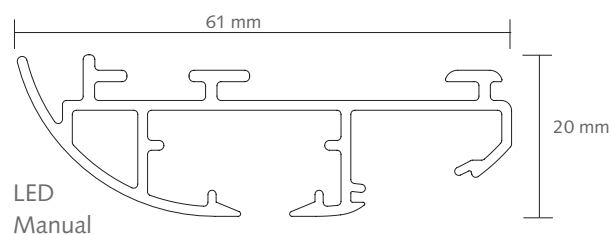

The DS-XL® LED Motorised track system has been awarded for the Red Dot Award 2021 for its outstanding product design. The Red Dot Award is one of the most internationally known and sought-after awards in the design industry.

SPECIFICATIONS

- Shown actual size 1:1
- Size LED 61 x 20 mm
- Size LED Motorised 66 x 25 mm
- Weight LED 580 gr/meter
- Weight LED Motorised 675 gr/meter
- Aluminium extrusion
- Colours available: white or anthracite

FOREST DS-XL® LED Control Options

Our wide range of controls make finding a fit for your home even easier; controlling the curtains by hand, remote or even by building automation system. With the remote you can control the curtains in any position you like. Controlling the motorised curtain system by your smartphone or tablet, you can create and schedule customised room scenes that allow your curtains to operate on their own throughout the day.

FOREST DIAMOND SENSE REMOTE

15 or 2 Channel Remote control. Control up to 15 systems individually and in group by integrated timer function or manual. Auto-On mode, when holding hand above it, the integrated LED light will automatically come on. Radio control, range up to 30 meters. Including magnetic wall support.

FOREST
CONNECT

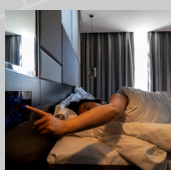

FOREST WI-FI DONGLE

With the Shuttle® Wi-Fi dongle, you can control your motorised curtains with your mobile device by the Forest Connect app or even by voice command with the easy integration in for example Google Home or Amazon Echo without the need for an additional hub or gateway.

FOREST WIRELESS CONNECTOR

The Forest Wireless Connector is an easy way to make the motorised curtain systems 'smart'. This wireless remote solution works in combination with an analogue timer or a smart plug with which services as Apple HomeKit or Google Assistant or Amazon Alexa become available. It is also easily incorporated into most popular building management systems, including dry contact controls.

BUILDING AUTOMATION / HOTEL CONTROL

The DS-XL® System can be connected to any Building Automation system, by relay control.
